***While attending a recent NCAA meeting for summer event hosts, the NCAA advised AAU of their intention to reduce the number of evaluation days in the summer of 2012. The AAU requested a delay until 2013 since the summer calendar has been posted for some time. AAU stated it would be in the best interest of athletes and their families since vacation plans have been made and airline tickets purchased. The NCAA made the legislation effective in 2012.**

The AAU prefers not to make changes to posted events, but believes in this case, the best interest of AAU member athletes will be served.

The AAU is working in conjunction with the NAIA, NJCAA, NCAA Division II and NCAA Division III Coaches to attend AAU events during the periods of time when NCAA Division I Coaches may not be in attendance.
