## TOP 25 (12U) PLAYERS/PROSPECTS

- 1. Jayden Reid, 5'3, 1/2G, New Heights (NY) 2023**  
*COLD BLOODED!!! Arguably the best player we saw all week, super shifty and crafty with the basketball, a prototypical NYC PG with above average ball handling and a bag of tricks when it comes to dribble moves. Very quick 1<sup>st</sup> step to go along with exceptional ball handling lets him get downhill fast and keep defenders on their heels-can get to the rim and finish anytime he wants. He also showed that he can knock down open shots from the mid-range and deep occasionally. One to keep your eye on in the future.*
- 2. Robert Dillingham, 5-4, CG, Team United (NC) 2023**  
*Pesky little guard who moves his feet very well and harasses defenders with good on ball defense; big time scoring guard who can use the dribble to get to the basket or knock down jump shots off the catch or dribble. Very hard to stay in front of him with ball in his hands.*
- 3. Jaylen Curry, 5-7, CG Team United (NC) 2023**  
*Big time lefty scorer that excels in one on one situations. Knocks down the deep ball off the catch and puts a lot of pressure on defenders with the dribble. Has a strong knack for putting the ball in the basket and going on his own 10-0 runs on the offensive end of the floor. Plays with a chip on his shoulder in which he is never intimidated and feels that he can get to the rim any time he wants.*
- 4. Christopher Lockett, 5'10, SG Houston Hoops Blue Chips (TX) 2023**  
*Long frame with long wingspan; once his body fills out he projects as a nice combo guard on the next level. Right now he is a matchup problem because of his skills and length. Shoots the ball very well from deep and can put it on the floor displaying a nice mid-range game. His strength right now is scoring on the move via the dribble or screens. He has a very high basketball IQ and makes good decisions of when to attack or pass. The kid is a natural scorer and one to watch in the future.*
- 5. Amani Hansberry, 6-2, WF, Team Durant (MD) 2023**  
*Runs the floor very well for a young player his size. He has a high basketball IQ at this age. Shows good footwork and agility which he uses well to get in good rebounding position without fouling, has potential to be a SF at the next level as he continues to develop and grow. He can put it on the floor with ease from 15 feet out and did a really good job of flashing high post, facing up, and attacking off the dribble.*

6. **Kaleb Brown, 5'9, G, Team Loaded 757 (VA) 2023**  
*Kid has a very high basketball IQ and was one of the better players we saw all week. A big guard who is very poised under pressure and always seems to play at his own comfortable pace. Good floor leader who demonstrates good floor vision when passing and keeps things moving smoothly on the floor. Strong ball handling skills, knows when and how to attack defense for easy baskets and plays on both ends of the floor. Didn't see him take many outside shots but did knock down several short jumpers with good elevation, form, and rotation. As he continues to grow and develop, he should become a nice PG on the next level.*
  
7. **Caleb Williams 5'7 G Team Takeover (DC) Black 2023**  
*Really polished young player that has a knack for scoring and really understands the game. Moves well without the basketball and did a good job of making plays for himself and others. Good basketball IQ. Attacks well off the dribble when attacking the rim or making the proper pass to teammate for easy scores. Needs to improve at moving without the basketball and finding open spots to get off his jump shot off. Good court vision.*
  
8. **Corey Kelly, 6'1, F, Houston Hoops Blue Chips (TX) 2023**  
*Long arms and good length, frame will fill out as he continues to grow. Should project out to be a SF on the next level with decent wing skills. Rim protector-blocks shots and controls the paint with his size and athleticism, good timing and is a quick leaper which help to keep him out of foul trouble.*
  
9. **Evan Smith 5-9, F, Team United (NC) 2023**  
*Smooth versatile player that is a matchup problem at this age. He can play inside or outside, facing up or with his back to the basket. A very good ball handler that attacks big men from the perimeter with his dribble penetration and can finish at the rim. He will be a future guard and does a really good job now of rebounding on both ends and using his quickness to explode pass defenders off the dribble.*
  
10. **Tyler Ringgold 6-2, F, Houston Hoops Blue Chips (TX) 2023**

Did a good job of facing up on slower, bigger players, beating them off the dribble to the basket. Showed that he can run the floor and finish well in transition.*

- 16. Ty Cox, 5-11, F, RM5 Elite (TX) 2023**  
*Long athletic post player with a good frame that should continue to fill out as he gets older. Good motor, ran the floor well and seems to run and play up on his toes. Very active player on both ends of the floor, always moving. Used his length well in passing lanes to cause deflections when they pressured the ball. Has good athleticism that allows him to guard smaller quick guards with ease. Finished well and scored in transition.*
- 17. David Delaney, 6-1, C, Nightrydaz Elite (FL) 2023**
