This will allow the gymnast to receive credit for any part of the element that she completed on her own before and after the spot AT THE JUDGES DISCRETION. The deduction for any incomplete part of the element is not to exceed the value of the element minus .1 plus the spot deduction. Clarification: A judge has the discretion to take less than the maximum deduction depending on how much of the value part was completed without assistance.
  - Example Spot = -.50 Element value = .60 (Maximum deduction for Value Element .5) .50 +.50 = 1.0 Maximum Deduction
  - Example Spot = -.50 Element value = .60 (Judge takes .03 of the value of the element at their discretion) .50 + .30 Total Deduction is .80

#### SKILLS PERFORMED OUT OF ORDER

- Impose a flat 0.30 deduction for a skill(s) performed out of order. The skill will still be evaluated to include falls. The 0.3 deduction will be taken once in a routine to include all skills (major elements and/or a series of connections) performed out of order. In the case of more than one skill performed out of order judges should consider additional deductions from the General Faults and Penalties such a rhythm, text errors, etc. to further separate the athletes.
- Skills performed after the dismount will not be evaluated.

#### ALL COMPULSORY LEVELS

- Individual elements may be reversed within a routine, from a left element to a right element; from a right to a left element or a combination of both.
